

## **UPDATE ON 2020/2021 ADMISSION EXERCISE**

**All newly admitted students for 2020/2021 session must undertake the following laboratory investigations and immunization from home for the purpose of the required Students' Entrance Medical Examination.**

- i. Full blood count**
- ii. Urinalysis**
- iii. Stool microscopy**
- iv. Blood group**
- v. Genotype**
- vi. Digital chest x ray with a Consultant Radiologist's Report.**

All results must be brought along on resumption and presented for registration at the University Health Centre.

Routine immunization against Hepatitis B Viral infection and Human Papilloma Viral Infection (to prevent cervical cancer) is also strongly advised.

All Dental and Visual challenges should be addressed i.e. appropriate Dental treatment/Extraction, Dentures, correction of refractive errors with recommended glasses be effected before resumption.

All students who have any form of medical challenge or ailment should notify the Health Centre with medical report on such.

Parents are enjoined to give full disclosure of the medical status of their children so that the Health Centre can better serve them.
